

TEN (10) YEAR WARRANTY

Team Husky congratulates you on your purchase and thanks you for the confidence shown towards our high quality products. Husky offers you a ten (10) year warranty on your new power unit, and three (3) years on accessories. The benefits of the warranty are detailed in this document. We invite you to carefully read the information below in order to have the best experience possible when using your central vacuum system.

TEN (10) YEAR WARRANTY ON POWER UNIT COMPONENTS AND FIVE (5) YEAR WARRANTY ON LABOUR

All parts of your Husky power unit are warranted against manufacturing and/or functional defects for ten (10) years, from the original date of purchase at an authorized Husky dealer or store. See "Conditions and details of the ten (10) year warranty" below for normal use conditions covered by this warranty. The warranty is valid for residential use only. Any commercial or industrial use will void this warranty. The power unit must be used under normal conditions and with regular maintenance, as indicated in the user manual provided with the system.

CONDITIONS AND DETAILS OF THE TEN (10) YEAR WARRANTY

For ten (10) years from the original date of purchase, Husky commits to repair or replace the power unit under warranty. If the power unit cannot be repaired according to the conditions of this warranty, an equivalent unit will be provided in replacement. For the first five (5) years from the original date of purchase, Husky commits to repair or replace the power unit under warranty without any labour costs. When the initial five (5) year period has passed, labour costs needed to perform part replacement under this warranty will be charged to the owner of the system. To qualify for this warranty, the owner must immediately notify Husky at **1-800-361-3965** of any problem with the power unit. Additional instructions will be provided. All transport and administrative costs are the responsibility of the owner of the system.

A copy of the original receipt must accompany the product for repair. If there is no receipt, the on-line warranty registration done when purchased can be a substitute for the original proof of purchase. The use of electrical currents other than those indicated on the power unit, or any repairs done by non-qualified persons will void this warranty. The warranty will equally be void if the central vacuum system is used to vacuum liquids. Furthermore, the warranty will be void if the central vacuum system is used to vacuum any material prohibited as mentioned in the user manual. Husky will not be in any way responsible for any damage resulting from use that is not recommended in the user manual. The warranty does not cover damage resulting from abusive use, problems caused by a faulty installation or by any physical and/or functional alterations of the system. Abusive use may be considered if the installation is not done properly or if the guidelines outlined in the user manual or the installation instructions of the system are not followed.

To get maximum benefit from your central vacuum system and keep the warranty valid, Husky recommends regular cleaning of filters and following the maintenance instructions as described in the user manual. Consumables, such as motor carbon brushes, permanent filters and filtration bags are not covered by this warranty. Any repair, maintenance and replacement of carbon brushes must be done by an authorized technician. Any costs related to normal maintenance including the changing of carbon brushes are the responsibility of the owner.

THREE (3) YEAR WARRANTY ON ACCESSORIES (PARTS AND LABOUR)

All accessories and hoses have a three (3) year warranty on manufacturing defects from the date of the original purchase. The warranty does not cover damage resulting from abusive use or by any physical and/or functional alterations of the accessory or hose. Abusive use may also be considered if the installation is not done properly or if the guidelines outlined in the user manual or the installation instructions are not followed. To qualify for this warranty, the owner must immediately contact Husky at **1-800-361-3965** to notify us of any problem with defective parts. Additional instructions will be provided. All transport and administrative costs are the responsibility of the owner of the system. A copy of the original receipt must accompany the defective part for repair.

GENERAL WARRANTY CONDITIONS RELATING TO THE INSTALLATION

Any deviation from the installation instructions from Husky will immediately void any warranty provided by Husky. The installation of the power unit must be done according to the best standards and respecting regulations and other building codes. Husky will not be in any way responsible for any damage resulting from a faulty or improper installation under this warranty. The installer must follow all regulations and laws as well as the installation instructions from Husky in order to maintain this warranty.

ADDITIONAL WARRANTY

Husky is not responsible for any additional warranty sold or otherwise provided to the buyer by an authorized distributor or retailer.
